

HOLESAW KITS

Starrett Holesaw kits were developed to meet our customers needs with performance and quality

ELECTRICIAN'S KITS

The Electrician's hole saw kits are produced with Starrett Fastcut bi-metal hole saws, triple chipped Tungsten carbide tipped saws and our exclusive Smoothcut cordless hole saws. The combination of these various hole saw types allow the electrician to cut similar size holes through multiple materials.

EDP	Item	Description	Saw types	Saws	Accessories
69924	KCT06041-N	CT Electricians kit	CT Carbide Tipped	6	4
69925	KDP04011-N	DH Electricians kit	DH Bi-Metal	4	1
69927	KDP06042-N	DH Electricians kit	DH Bi-Metal	6	4
69938	KDP11041-N	DH Electricians kit	DH Bi-Metal	11	4
69926	KMX25061-N	DH/CT/CSC Electricians kit	CT Carbide Tipped DH Bi-Metal CSC Smooth-Cut	25	6

GENERAL PURPOSE KITS

The DH general purpose hole saw kits are produced with Starrett Fastcut bi-metal hole saws. These variable pitch hole saws have been the industry standard for decades. Hardened, heat resistant, and positive rake high speed steel teeth are welded to a durable alloy backing and cap. They are exceptionally strong, safe, and shatter resistant.

The CT general purpose hole saw kits are produced with high performance triple chip Tungsten Carbide tipped saws. The ultra-high saw hardness makes them the ideal choice for materials too hard or too abrasive to be cut with conventional high speed steel saws.

The MPH general purpose hole saw kits are produced with Tungsten Carbide Tipped Fastcut hole saws. Engineered with a unique tooth set for an ultra-aggressive cutting action, the TCT Fastcut Multi-Purpose hole saw brings productivity to a new level.

The D High performance hole saw kits are for drilling non-metallics. These diamond edge hole saws are produced with a uniform coating of synthetic diamond grit bonded to a durable steel platform. Diamond edge saws produce clean, accurate cuts and offer extended life well beyond that of conventional tools.

EDP	Item	Description	Saw types	Saws	Accessories
69971	KCT090501-N	CT General purpose kit	CT Carbide Tipped	9	5
69974	KD09041-N	D General Purpose Kit	D Diamond Grit	9	4
69970	KDP09051-N	DH General purpose kit	DH Bi-Metal	9	5
69975	KDP22051-N	DH General purpose kit	DH Bi-Metal	22	5
69972	KMP03031-N	MPH General purpose kit	CT Carbide Tipped	3	3
69973	KMP07031-N	MPH General purpose kit	CT Carbide Tipped	7	3

PLUMBER'S KITS

The Plumber's hole saw kits are produced with Starrett Fastcut bi-metal hole saws and our diamond edged hole saws. The diamond edge hole saws are produced with a uniform coating of synthetic diamond grit bonded to a durable steel platform which produce clean, accurate cuts, and offer extended life well beyond that of conventional hole saws. The combination of these hole saw types allow the plumber to cut similar size holes through multiple materials.

EDP	Item	Description	Saw types	Saws	Accessories
69914	KDP06041-N	DH Plumbers kit	DH Bi-Metal	6	4
69918	KDP12061-N	DH Plumbers kit	DH Bi-Metal	12	6
69919	KDPD19061-N	DH/D Plumbers kit	DH Bi-Metal D Diamond Grit	19	6

INDUSTRIAL AND UTILITY KITS

The Industrial and Utility hole saw kits are produced with Starrett Fastcut bi-metal hole saws. These variable pitch hole saws have been the industry standard for decades. Hardened, heat resistant, and positive rake high speed steel teeth are welded to a durable alloy backing and cap. They are exceptionally strong, safe, and shatter resistant.

EDP	Item	Description	Saw types	Saws	Accessories
69986	KDP04031-N	DH Kit	DH Bi-metal	4	3
69954	KDP07051-N	DH Industrial kit	DH Bi-Metal	7	5
69998	KDP09042-N	DH Kit	DH Bi-metal	9	4
61841	KDP11042-N	DH Industrial kit	DH Bi-Metal	11	4
69953	KDP15061-N	DH Industrial kit	DH Bi-Metal	15	6
69959	KDP06021-N	DH Utility kit	DH Bi-Metal	6	2

LOCKSMITH'S KITS

The SH Locksmith's hole saw kits are produced with Starrett standard pitch bi-metal hole saws. These hole saws provide cleaner finished holes than conventional variable pitched saws. Hardened, heat resistant, and positive rake high speed steel teeth are welded to a durable alloy backing and cap. They are exceptionally strong, safe, and shatter resistant.

The DH Locksmith's hole saw kits are produced with Starrett Fastcut bi-metal hole saws. These variable pitch hole saws have been the industry standard for decades. Hardened, heat resistant, and positive rake high speed steel teeth are welded to a durable alloy backing and cap. They are exceptionally strong, safe, and shatter resistant.

EDP	Item	Description	Saw types	Saws	Accessories
69969	KS02021-N	SH Locksmith's Kit	SH Bi-metal	2	2
69963	KDP06034-N	DH Locksmith's Kit	DH Bi-Metal	6	3
69967	KDP08061-N	DH Locksmith's Kit	DH Bi-metal	8	6
